

Steam Power

The benefits of steam

When the steam content in an environment is greater than the quantity of water in the epidermis, a layer of moisture forms on the skin, warming up the body. The combined action of the steam and the controlled heat assists the blood and lymph circulation system, dissolving toxins and enabling their expulsion.

Apart from assisting in detoxification, the warm, humid air of steam soothes your airways and helps to clear the mucus from the lungs as well as having proven, positive effects on the liver and on the circulation.

Steam baths are very healthful for the state of mind too, loosening you up mentally. As a well known relaxant, steam can also help you overcome stress-induced anxiety and sleeping disorders (especially through over-excitability).

Discover wellness with **the power of steam.**

The dictionary defines 'wellness' as "the quality or state of being healthy in body and mind, especially as the result of deliberate effort." In a world of high-pressure jobs and high-stress lifestyles, wellness products are now a necessity in every home to prevent the build up of stress and facilitate daily unwinding and rejuvenation.

A modern steam bath enclosure with a control panel and a bench. The enclosure is made of glass and has a sleek, minimalist design. The interior is illuminated with a soft, blue light. A control panel is mounted on the left wall, and a white bench is positioned in the center. The floor is dark and has a drainage grate. The overall atmosphere is clean and sophisticated.

The perfect steam, **crafted by Artize**

What a perfect steam bath needs is optimum, constant steam density, at a temperature above 40°C. All Artize steam module generators have been built and tested to ensure the right steam quantity and temperature to guarantee a truly relaxing, lasting experience.

Artize Steam Power

Artize's new high-performance range of Steam Power steam generators are ideal for domestic use. Stylish and compact, they are easy to install, high-tech and user-friendly. A new touch panel with backlit icons combines ease of use with multiple functions to guarantee controlled steam output speed, longevity, low maintenance and energy saving.

Available in white and black finishes to complement every bathroom's décor, Steam Power offers chromotherapy lights and aroma therapy with music to further enhance the benefits of steam.

- The right amount of steam at the right temperature
- Low energy consumption
- Low maintenance
- Automatic boiler-cleaning system minimises limescale build-up
- Delivers music from your own device
- Air ventilation system minimises temperature layering inside the cubicle
